MONIQUE GREEN

HOUSING SERVICES MANAGER A YARROW HOUSING

I LOVE WORKING IN HOUSING BECAUSE ...

There are so many reasons why I love working in housing but first and foremost is being able to do my bit to make the world a fairer place.

I know that a stable, secure home is one of our most basic needs as without this is virtually impossible to get on in life. I believe that social housing not only provides the stability and security of a roof over someone's head, through our investment in building communities we also offer our residents the opportunity to feel a sense of belonging and a connection to something bigger which can only have a positive impact on an individual's overall well-being.

In a nutshell, what I love is that housing as a sector always goes above and beyond what is expected in order to achieve positive outcomes for our society as a whole.

MY PROUDEST ACHIEVEMENT IN HOUSING IS ...

I am proud to work in housing because the sector is incredibly resilient and committed; in the face of constant change and challenges we have been able to adapt yet keep sight of our core purpose; the provision of good quality housing for those most in need.
