Challenge

Choose one  
of these  
actions to  
do  
tomorrow

Look at the CIH professional standards with a colleague and talk about how you can use them in your work.

Consider the language you use in your team, choose a word you'll stop using, and ask your colleagues to do the same.

In the morning, write down your own personal values and choose how you'll demonstrate one of them. At the end of the day remember the good moments.
