- Notes:
1. Scottish Government capital spending is recorded for the year in which it was incurred. Private finance and other public finance reflects approval stage estimates as outturn expenditure is not recorded. As approval estimates include spending to be paid in subsequent years, figures for any given year should be treated with caution, though approvals data provide a reasonable indication of longer-term trends.
 2. Other public finance includes finance provided by local authorities such as funds generated from second-homes council tax income and commuted-developer payments. 'Other public finance' can only be reported from 2018/19 onwards.
 3. Private finance can include sales proceeds from shared equity, HA private finance and borrowing from a bank or building society by organisations and individuals.
 4. Scottish Government capital grant funding for local authority development is reported in Table 81 and not reported here. However, housing association development funded through TMDf is included. See Table 81 for further details.
 5. Prior to 1992/93, separate figures for expenditure for 'private development' and 'other' programmes are not available. Thus both are included in the 'private development' figures.
 6. Scottish Government funds for housing association and private development are for social rent, mid-market rent, shared equity and other for sale schemes. From 2014/15 housing association funds include charitable bond loans.
 7. Housing association expenditure on Mid-Market Rent (MMR), Local Affordable Rent Housing Trust (LAR) and from 2014/15, Open Market Shared Equity (OMSE) are classified as 'private development' activity. This discontinuity is indicated by the double lines.
 8. Private finance (D) for private developers in 2011/12 was unusually high due to large numbers of MMR schemes delivered and a large 300-unit private developers' (GRO Grant) scheme.
 9. 'Other' expenditure mainly includes Scottish Government programmes such as the Rural and Islands Housing Fund and the Infrastructure Fund. Any private finance that supports these programmes is typically not reported.
 10. Figures for expenditure on the Affordable Housing Supply Programme for 2023/24 were unavailable at the time of compilation.
