- Notes:
1. Percentage figures show percentage of all dwellings in each category that do not have central heating.
 2. The sample size was not sufficiently large to report separate figures for NIHE and housing associations in 2011 and 2016.
 3. The number of dwellings without central heating in 2016 was too low to estimate reliably.
 4. Data for 1996 have been omitted; see earlier editions of the *Review* for these.
